

Sheila Jagla

850-591-5119 | sheilajagla@gmail.com

I am an enthusiastic and driven full stack developer with an extensive background in online higher education and design. I am proficient in JavaScript, React, Node.js, PostgreSQL, Firebase, HTML, CSS and am interested in software development, SaaS, documentation, and generally making information usable. I am pursuing meaningful work in an environment that values learning, growth, and making an impact.

Recent Projects:

[Twisted](#) | [GitHub](#) Twisted is a web application designed to enable yarn lovers to contribute, favorite, and explore patterns. This was built with React and Firebase.
